### WELL PROJECTS

Well Projects is one of New Life Foundation's projects which provides clean water access to needed families. We have plans to dig ten wells in 2019 and eight have already been dug for communities in Kompong Thom and Kratie Province. Two more will be dug for communities in Siem Reap Province.

Here is one of many touching testimonies from a community of 20 families that received a water well from our project. Previously they used water from a stream nearby the village. The stream provides enough water in the rainy season, but there is a shortage of water each dry season. Since we provided the water well, the people there can now get access to clean water easily and more conveniently both in dry and rainy season. They are both happy and thankful for the well and also the generosity of New Life Foundation partners supporting this project.

This girl has to take water for the whole family at least 4 times each day. She is so happy with the well as it is closer to her home than the stream.

### MUSIC & WORSHIP MINISTRY

Worship & Music Ministry is part of Church Planting. Our team has been working with six Regional Churches in rural areas to raise up passionate worshipers of God. Over the last six months, we have seen the increasing numbers of youth taking part in this ministry.

Our team has been working with 80 young people and among the six regional churches. These youth, especially the ones in Komong Thom and Prey Veng, are very passionate to learn and to lead. This has filled our team's heart with joy and thankfulness to our Lord. It is a great privilege and honour to raise these young worshipers for our Lord!

### DYNAMIC SERVICE MINISTRY

Dynamic Service Ministry is part of Phnom Penh Church. The goal is to provide a seamless flow in the service and to create an atmosphere of the Holy Spirit for people to encounter with God without distraction. This ministry has trained and equipped volunteers to become leaders and good servants of God. So far there are 161 volunteers in this ministry.

This is a testimony from one of our volunteers from this ministry. Ly Sokdaneth said, "I am serving as a Service Coordinator. I'm so blessed to serve in this ministry. I have learned how to work in a team, to communicate better with others in the team, to lead, to love and to be patient. Through serving I can also see my gifts and talents more clearly and it helps me to be faithful in the house of God. I am grateful for the opportunity to serve too!"
